

Spot crypto infrastructure with Australia's most competitive AUD rates.

Pepperstone Crypto is a Melbourne-born, AUSTRAC-registered digital currency exchange and wholesale liquidity provider, backed by the Pepperstone Group's 15-year track record in global markets. We combine Australia's lowest retail trading fees with customisable wholesale rates, instant AUD settlement, and enterprise-grade API infrastructure, giving partners the pricing, speed, and reliability they need to scale.

THE PROBLEM

High all-in fees are costing you margin

When you combine spreads and commissions, most Australian exchanges carry significant costs on AUD crypto pairs. For platforms routing volume through these books, that compounds into serious revenue loss. We offer Australia's lowest retail fees and highly competitive, customisable wholesale rates for partners.

THE PROBLEM

Settlement shouldn't be a bottleneck

Slow or unreliable AUD settlement creates friction for partners and end users alike. We settle instantly via NPP and Banking Circle, with dedicated payment rails purpose-built for digital asset flows. No delays, no intermediaries, no surprises.

WHY PARTNERS CHOOSE US

Competitive Pricing

Australia's lowest retail fees with customisable wholesale rate schedules for partners. Structural advantage backed by access to industry-leading FX rates through the broader Pepperstone Group. Pricing built around your volume and use case.

Enterprise API

Full REST API with documentation and dedicated integration support. 1:1 technical walkthroughs and ongoing engineering assistance to get you live fast.

Regulated and Trusted

AUSTRAC-registered DCE (Pepperstone Digital Pty Ltd). Part of the Pepperstone Group, which serves 400K+ clients across 170+ countries. 15 years of infrastructure and regulatory standing behind every trade.

PARTNERSHIP MODELS

API Integration

Connect your platform directly to our AUD liquidity via REST API. Built for on/off-ramp providers, aggregators, and platforms seeking best-in-class execution on AUD pairs.

White Label

Offer spot crypto trading under your brand. Full infrastructure, compliance, and settlement handled by us. You own the client relationship and the revenue.

Institutional

Tiered VIP pricing, dedicated account management, and bespoke fee structures for funds, trading firms, and high-volume operations.

Melbourne-born. Australian owned and operated.

Streamlined KYB for corporate and institutional clients

Full and comprehensive API documentation

Dedicated technical account managers from integration to production

Let's build something.

Tell us what you're working on and we'll show you how better AUD liquidity and lower all-in costs can fit into your roadmap.
